Chapter 56. Dumpsters, Roll-Off Containers and Storage Containers

[HISTORY: Adopted by the Mayor and Council of the Borough of Barrington 10-9-2007 by Ord. No. 893.^[1] Amendments noted where applicable.]

[1] *Editor's Note: This chapter was adopted as Ch. 54 and renumbered during codification.*

§ 56-1. Placement of trash dumpsters and roll-off containers.

No dumpster, roll-off container or similar container for trash or debris of any type may be placed or maintained by any private party in or on any Borough property, street or right-of-way except as in compliance with the provisions of this chapter. Furthermore, no dumpster, roll-off container or similar container for trash or debris of any type may be placed or maintained on any private property within the Borough except in compliance with the provisions of this chapter or in a manner and location as set forth on a duly approved site plan.

§ 56-2. Permit required.

Prior to the placement of any dumpster, roll-off container or similar container (hereinafter referred to as "container") in or on any Borough property, street or right-of-way, or on any private property (not covered by a duly approved site plan), the user of such container shall apply for and receive a permit from the Borough pursuant to the provisions and standards set forth herein:

- A. Application for the permit shall be made to the Construction Office or such other office as the Borough Council may from time to time designate on a form provided by the Borough. The application shall require, among other things, the full name, address and other contact information for both the owner of the container and the owner of the property with which the use of the container is associated. The application shall be accompanied by a permit fee of \$25 for the placement of any dumpster, roll-off container or similar container in or on any Borough property, street or right-of-way. There shall be no application fee for the placement of any dumpster, roll-off container or similar container on private property.
- B. Any container to be placed on a street or right-of-way shall be placed on the street in a legal parking space as approved by the Barrington Police Department and the Superintendent of Public Works and shall be equipped with appropriate reflectors or other safety markings so that the container will not constitute a safety hazard. The specific number, location and nature of the markings shall be determined by the Barrington Police Department in the exercise of its discretion and shall be noted on the permit as a condition of its issuance. An inspection of the proposed location shall be made by the Barrington Police Department and Superintendent of Public Works to determine the best placement so as to ensure no damage to the Borough's street or right-of-way and to ensure public safety, and shall be noted on the permit as a condition of its issuance.
- C. Any permit issued for placement of a container on a street, right-of-way or other public property shall be valid for a period of 14 days.
- D. Any container placed on private property shall be placed on a suitable base to assure stability. Containers placed on private property shall not be placed within five feet of any property line,

public sidewalk, or other right-of-way for public access.

- E. Upon a showing of continued need for the container (such as during the course of major construction projects), renewals will be considered by new application and payment of an additional \$25 fee.
- F. The applicant shall place in escrow the amount of \$400 to cover the cost of potential damage to Borough property when any container is placed on Borough property or street. Upon removal of the container and inspection by the Superintendent of Public Works, if damage has occurred, cost of repairs will be deducted from the escrow amount and the balance, if any, will be released to the property owner. If there is no damage, the full escrow amount will be returned.

§ 56-3. Bulk storage containers on public property.

No bulk storage container, storage container, storage device, "POD" or similar container (hereinafter referred to as "storage container") shall be placed or maintained by any private party in or on any Borough property, street or right-of-way.

§ 56-4. Bulk storage containers on private property.

No storage container shall be placed or maintained on any private property unless it complies with one or more of the following provisions:

- A. For purposes of moving. Such storage containers may be placed or maintained on a driveway or other suitably paved area for purposes of packing or unpacking goods and materials of the owner or occupant of the property in preparation for or subsequent to moving into or out of the property for a period of not more than 30 consecutive days.
- B. For use during construction/renovation. Such storage containers may be placed or maintained on a driveway or other suitably paved area for purposes of storing the goods and materials of the owner or occupant of the property when necessary during renovation or rehabilitation of the structure located on the premises in which the goods or materials would otherwise be located, during the period of renovation or rehabilitation and up to 10 days prior to commencement and 10 days subsequent to completion of the work. In no event shall this time period be for more than a total of 120 days.

§ 56-5. Responsibility for compliance.

The owner of the property shall be responsible for compliance with the provisions of this chapter. Copies of the penalty provisions of this chapter shall be appended to the permit and shall be provided with a copy of the permit to the property owner.

§ 56-6. Violations and penalties.

Any person who violates any provision of this chapter shall, upon conviction in the Municipal Court of the Borough of Barrington or such other court having jurisdiction, be liable to the fines and/or penalties as provided for in § 1-15 of the Code of the Borough of Barrington. Each day that a violation occurs shall be deemed a separate and distinct violation subject to the penalty provisions of this chapter.
