SPECIAL RULING

Christopher Widell, PRO SE;

BY THE DIRECTOR:

License renewal applications must be filed prior to the commencement of a new license term or not later than thirty days after the commencement thereof. N.J.S.A. 33:1-12.18. When timely renewal is not filed, the licensee may petition for the issuance of a “new license” pursuant to N.J.S.A. 33:1-12.18. The renewal application must be filed, and the municipal and State renewal fees paid, within one (1) year of the year following expiration of the license. Thereafter, the director may authorize the issuance of a “new license,” if he determines that the applicant’s failure to timely apply was due to circumstances beyond his or her control or other extraordinary circumstances.

In this case, on May 25, 2023, the licensee paid the municipal fee to Barrington Borough. On February 2, 2024, the licensee submitted the renewal application to Barrington Borough. On May 28, 2024, the licensee submitted the State fee, via mail. The verified petition and filing fee were submitted in September 2023. Thus, the license requires relief pursuant to N.J.S.A. 33:1-12.18.

In the verified petition, the licensee states that Ordell LLC purchased the license using an attorney to represent them in the sale. The license purchase and transfer were completed in 2021 and the license was properly renewed for 2022. For the 2023-24 renewal term, the licensee was informed that the attorney who handled it previously had retired. The licensee attempted to renew but was unsuccessful due to not being knowledgeable about the process. They have since engaged another attorney to assist in getting the license renewed and in good standing. All fees have now been paid.

Based upon the foregoing, I find that the licensee demonstrated circumstances beyond its control and/or extraordinary circumstances. Therefore, I shall GRANT the relief sought in the verified petition.

This licensee has also requested relief pursuant to N.J.S.A. 33:1-12.39 for the 2023-2024 license term(s). I will grant the relief requested. This authorization does not abrogate the licensee's obligation to timely submit the license renewal application and requisite fees prior to any consideration of renewal, including obtaining tax clearance.

Inasmuch as the application for the 2023 - 2024 license term will be considered an application for a "new" license, the licensee is required to file a 12 page application and advertise in accordance with N.J.A.C. 13:2-2.5.

Thereafter, the issuing authority may consider the application for a new license and grant or deny said application in the reasonable exercise of its discretion. In addition, the issuing authority may consider the N.J.S.A.33:1-12.39 application for the subject license for the 2023-2024 license term(s), in its inactive state, and to thereupon grant or deny said application in the reasonable exercise of its discretion.

The approval granted herein is based upon the specific facts alleged in this ex parte proceeding and, therefore, is subject to further review and modification should the factual circumstances warrant.

Christopher Widell, PRO SE;

BY THE DIRECTOR:

License renewal applications must be filed prior to the commencement of a new license term or not later than thirty days after the commencement thereof. N.J.S.A. 33:1-12.18. When timely renewal is not filed, the licensee may petition for the issuance of a “new license” pursuant to N.J.S.A. 33:1-12.18. The renewal application must be filed, and the municipal and State renewal fees paid, within one (1) year of the year following expiration of the license. Thereafter, the director may authorize the issuance of a “new license,” if he determines that the applicant’s failure to timely apply was due to circumstances beyond his or her control or other extraordinary circumstances.

In this case, on May 25, 2023, the licensee paid the municipal fee to Barrington Borough. On February 2, 2024, the licensee submitted the renewal application to Barrington Borough. On May 28, 2024, the licensee submitted the State fee, via mail. The verified petition and filing fee were submitted in September 2023. Thus, the license requires relief pursuant to N.J.S.A. 33:1-12.18.

In the verified petition, the licensee states that Ordell LLC purchased the license using an attorney to represent them in the sale. Based upon the foregoing, I find that the licensee demonstrated circumstances beyond its control and/or extraordinary circumstances. Therefore, I shall GRANT the relief sought in the verified petition.

This licensee has also requested relief pursuant to N.J.S.A. 33:1-12.39 for the 2023-2024 license term(s). I will grant the relief requested. This authorization does not abrogate the licensee's obligation to timely submit the license renewal application and requisite fees prior to any consideration of renewal, including obtaining tax clearance.

Inasmuch as the application for the 2023 - 2024 license term will be considered an application for a "new" license, the licensee is required to file a 12 page application and advertise in accordance with N.J.A.C. 13:2-2.5.

Thereafter, the issuing authority may consider the application for a new license and grant or deny said application in the reasonable exercise of its discretion. RESOLUTION 9-2024-105

SUSTAINABLE LAND USE PLEDGE

WHEREAS land use is an essential component of overall sustainability for a municipality; and

WHEREAS poor land-use decisions can lead to and increase societal ills such as decreased mobility, high housing costs, increased greenhouse gas emissions, loss of open space and the degradation of natural resources; and

WHEREAS well planned land use can create transportation choices, provide for a range of housing options, create walkable communities, preserve open space, provide for adequate recreation, and allow for the continued protection and use of vital natural resources; and

WHEREAS Given New Jersey's strong tradition of home rule and local authority over planning and zoning, achieving a statewide sustainable land use pattern will require municipalities to take the lead;

NOW, THEREFORE, we the Borough of Barrington, resolve to take the following steps with regard to our municipal land-use decisions with the intent of making Barrington a truly sustainable community. It is our intent to include these principles in the next master plan revision and reexamination report and to update our land-use zoning, natural resource protection, and other ordinances accordingly.

Regional Cooperation - We pledge to reach out to administrations of our neighboring municipalities concerning land-use decisions, and to take into consideration regional impacts when making land-use decisions.

Transportation Choices - We pledge to create transportation choices with a Complete Streets approach by considering all modes of transportation, including walking, biking, transit and automobiles, when planning transportation projects and reviewing development applications. We will reevaluate our parking with the goal of limiting the amount of required parking spaces, promoting shared parking and other innovative parking alternatives, and encouraging structured parking alternatives where appropriate.

Natural Resource Protection - We pledge to take action to protect the natural resources of the State for environmental, recreational and agricultural value, avoiding or mitigating negative impacts to these resources. Further, we pledge to complete a Natural Resources Inventory when feasible to identify and assess the extent of our natural resources and to link natural resource management and protection to carrying capacity analysis, land-use and open space planning.

Mix of Land Uses - We pledge to use our zoning power to allow for a mix of residential, retail, commercial, recreational and other land use types in areas that make the most sense for our municipality and the region, particularly in downtown and town center areas.

Housing Options - We pledge, through the use of our zoning and revenue generating powers, to foster a diverse mix of housing types and locations, including single- and multi-family, for-sale and rental options, to meet the needs of all people at a range of income levels.

Green Design - We pledge to incorporate the principles of green design and renewable energy generation into municipal buildings to the extent feasible and when updating our site plan and subdivision requirements for residential and commercial buildings.

Municipal Facilities Siting - We pledge, to the extent feasible, to take into consideration factors such as walkability, bikability, greater access to public transit, proximity to other land-use types, and open space when locating new or relocated municipal facilities.
