ACCEPTED ITEMS

ac adapters	metal - baled or loose
aluminum, brass, light iron and copper	microwave ovens
audio and video equipment (no wood)	motherboards, b, c, tweener and finger boards
ballasts (non-PCB 's)	motors
car batteries	mp3 players / ipods
cash registers	PC fans and power supplies
cell phones and telephones	PC scrap and stereos (no wood)
computer memory	PC's - desktop, laptops, tablets, towers
computer periphery and parts	police scanners and pagers
e-readers	portable radios
game consoles	printers, copiers, scanners, modems, fax machines
gold clip ends	scales
handheld / table mounted scanners	televisions
hard drives	toner and ink cartridges
household appliances not containing a compressor	uninterrupted power supply
keyboards, mice and pc speakers	vcr, dvd, blueray, laser disk and cd players
laptop and cell phone batteries	wire - all types
LCD or CRT computer monitors	yokes
lead acid batteries	

SINGLE STREAM RECYCLING

Milk, juice cartons, etc.

Glass bottles & jars

#1 & #2 plastic bottles, jars, and jugs

Aluminum, metal food, & beverage containers

Loose metal jar lids & steel bottle caps

Paperback books

Junk mail, envelopes, post it notes, greeting cards, etc.

Newspaper, magazines, circulars, brochures, inserts, etc. (no bags, do not tie & bundle)

Telephone books

File folders, office paper

Corrugated cardboard & paper bags

Paperboard boxes (cereal, pasta, tissue, etc.)

Paper towel roll inserts

For more information visit
CamdenCounty.com/Recycling

AIM FOR
MAXIMIZED
RECYCLING

NO

- NO Plastic bags
- NO Plastics other than #1 and #2 (identified above)
- NO Plastic (or paper) to-go containers, cups, straws, or utensils
- NO Plastic film, wrap, or bubble wrap
- NO Pizza boxes
- NO Styrofoam of ANY kind
- NO Frozen food, ice cream, or frozen juice containers
- NO Organic material or food waste
- NO Hoses or hangers

NO NEED TO REMOVE:

Paper clips, stamps, address labels, staples, metal fasteners, cellophane address windows, rubber bands, spiral bindings, plastic tabs.

✓ Empty & Rinse All Containers.

✓ Please follow these guidelines carefully.

Making It Better, Together.

This document was printed on recycled paper

THE RECYCLING BIN'S DIRTY DOZEN

1 NO Plastic Bags

Plastic bags are the WORST contaminant in the recycling bin. When placed in a curbside bin, they get wet and dirty and cannot be recycled. Plastic bags with a #2 or #4 can be recycled at the CHARM (Center for Hard-to-Recycle Materials) if they are clean, dry and empty. They may also be recycled at participating grocery stores; find a list of participating stores.

2 NO Materials in Plastic Bags

Workers have to slow the conveyor belts to rip open bags that contain recyclables and then add the bag to the heap of bags bound for the landfill. These inefficiencies waste time and money.

3 NO Shredded Paper

Shredded paper is too small to sort. The pieces fall through the cracks of the sorting machines, stick to the belts and end up all over the floor. Please avoid shredding when possible because it destroys the potential for recycling. Compost shredded materials in your curbside compost bin (if you have one) or recycle at your local Recycling Drop-off Center.

4 NO Scrap Metal

Scrap metal items of any size should not go into your curbside bin. These items cause excessive damage to the recycling equipment.

5 NO Hazardous Waste

Hazardous waste such as paint, automotive fluids, car batteries and pesticides must be taken to your local Hazardous Waste Facility, not to the Recycling Center.

6 NO Diapers or Bio-Hazardous Waste

Syringes and needles, diapers and other sanitary products are not recyclable.

THE RECYCLING BIN'S DIRTY DOZEN

7 NO Nonrecyclable Plastics

While we have added new plastic items, many plastics are still not recyclable. Plastic lids, foam (Styrofoam®) and any other plastics not listed in our recycling guidelines are not recyclable because stable markets do not exist for these materials.

8 NO Flattened Containers

The single-stream sorting equipment separates "flats" (paper) from "rounds" (containers). When containers are flattened, the equipment mistakenly sends them to the paper side of the facility, significantly contaminating the paper we're sending to market.

9 NO Caps/Lids on Glass Bottles or Jars

Metal lids can be removed and recycled loose in the bin. Plastic lids and caps from glass bottles and jars should be thrown away.

10 NO Liquids

When we compact bottles for shipping, liquids drip, splatter and explode all over the floor, creating a sticky, smelly mess on the sorting floor. Please completely empty and quickly rinse out all containers before recycling.

11 NO Ceramics or Nonrecyclable Glass

Ceramic, china, dishes, mirrors, light bulbs, Pyrex®, porcelain and window glass should not go into the bin! Their different melting points and chemical compositions will ruin new glass bottles.

12 NO Frozen Food Containers

Paperboard boxes that were designed for freezer foods, such as frozen pizza and entrées, have a plastic polymer sprayed on them to protect against freezer burn. That same coating prevents the box from breaking up in the recycling process. These materials are not recyclable OR compostable.
